2022  
SPECTER

## INTRODUCING SPECTER

---

Specter is an innovative coffee solution in a stylish design. It is a complete, under-the-counter solution with:

- The Eversys coffee solution
- Elegant design
- Easy user interface
- Wide range of beverages
- Clutter-free countertop
- Easy installation
- Automatic data collection

01

# THE EVERSYS COFFEE SOLUTION

---

Under the counter, you will find one of the best superautomatic coffee machines on the market with the following features:

- A modular system with a minimum number of components for efficient maintenance
- All-metal construction for reliability, durability, and sustainability
- Electronic controlled ceramic grinders for consistency and optimal extraction at all times
- The unique 1-Step milk system for optimal flavor and texture
- Two entirely separate milk systems - no contamination
- A leading-edge telemetry system for optimizing service and cost
- A fully automatic cleaning system
- A reduced noise level

**Powered by Eversys Legacy or Eversys Cameo C2**

## ELEGANT DESIGN

---

The minimalistic design of the tap is without any superfluous elements and shapes for a stylish look that discreetly fits into any interior design.

We have stripped the design down to its essential quality:

- easy cleaning
- clutter-free look
- drip tray with drain
- tap for 2 identical drinks at the same time

Specter is available in black, white, or chrome and comes with one tap for coffee or an additional tap for water.

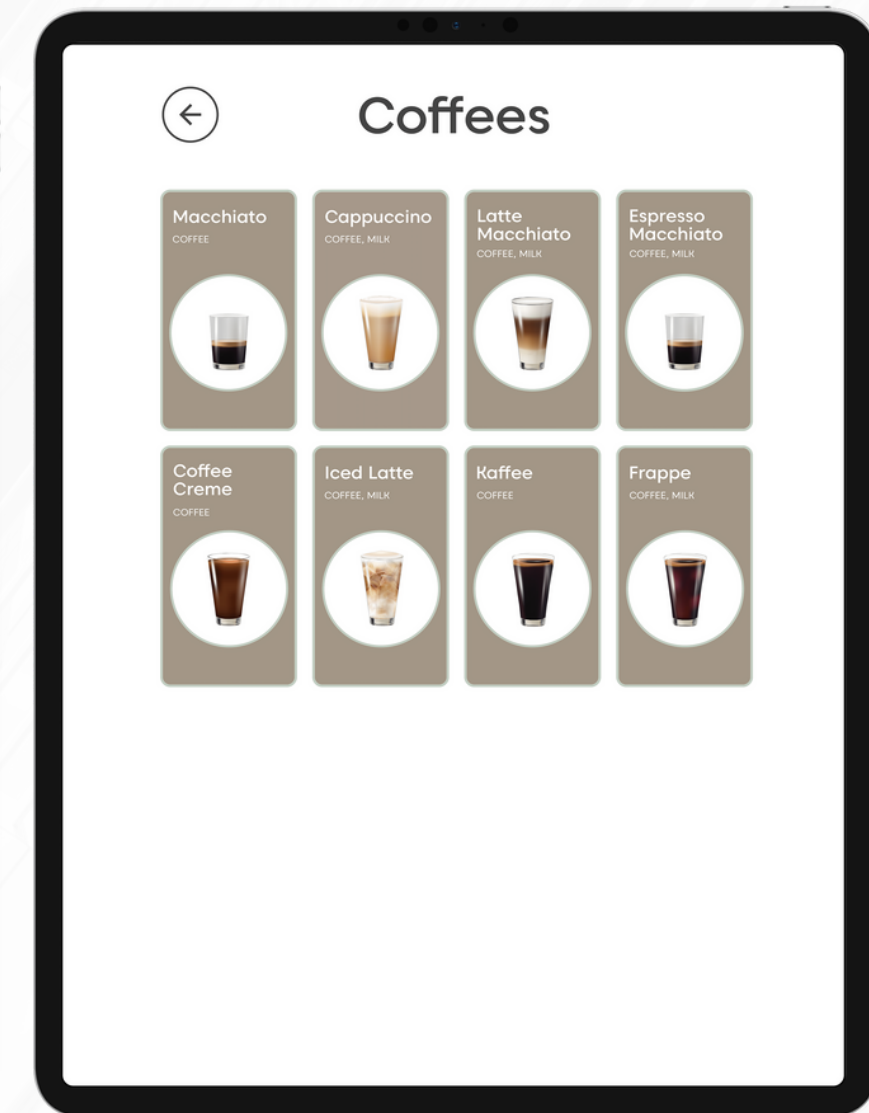

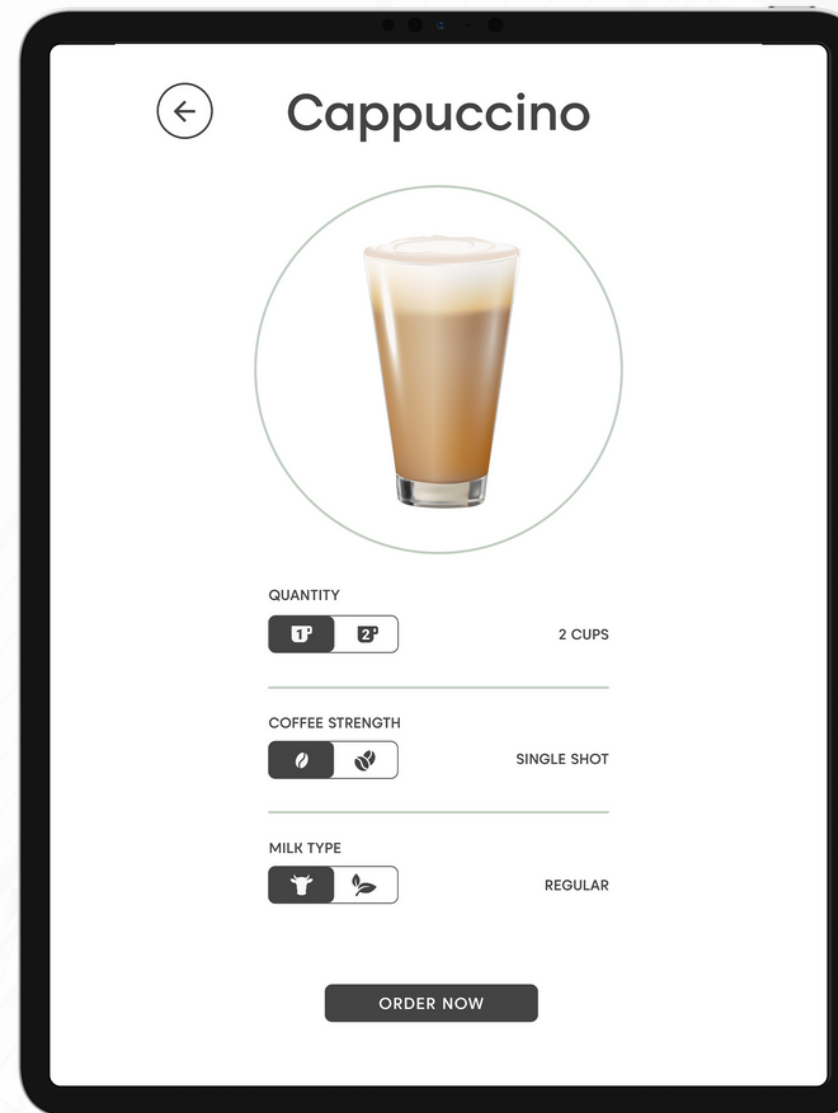

# EASY USER INTERFACE

**Intuitive and easy-to-use ordering interface developed by Smyze.**

Including features:

- Choice of 1 cup or 2 cups quantity,
- Customized coffee strength,
- 2 different milk choices,
- Maintenance Menu,
- Error Feedback Screens,
- Closed-source software

## WIDE RANGE OF HOT & COLD BEVERAGES

---

Specter comes with a customizable menu. You can choose between a wide range of different coffee drinks with or without milk, hot and cold.

All drinks are brewed in top quality with the Eversys e'Barista system.

You can also choose steaming hot water for a cup of tea. Stay hydrated with the optional water cooling system and the integrated CO2 system for still and sparkling water.

# CLUTTER-FREE COUNTERTOP

---

We cover the technology under the counter to provide you with a perpetually clean and clutter-free countertop.

Experience easy cleaning, reduce the noise level, and improved hygiene with Specter.

## EASY INSTALLATION

---

- Specter is a complete set, tested, and ready for installation into existing cabinets
- Minimum cabinet dimensions are 1x800mmx800mmx600mm
- With water system: the above plus an additional 1x 600mmx800mmx600mm cabinet
- Specter comes with intuitive installation and support manuals

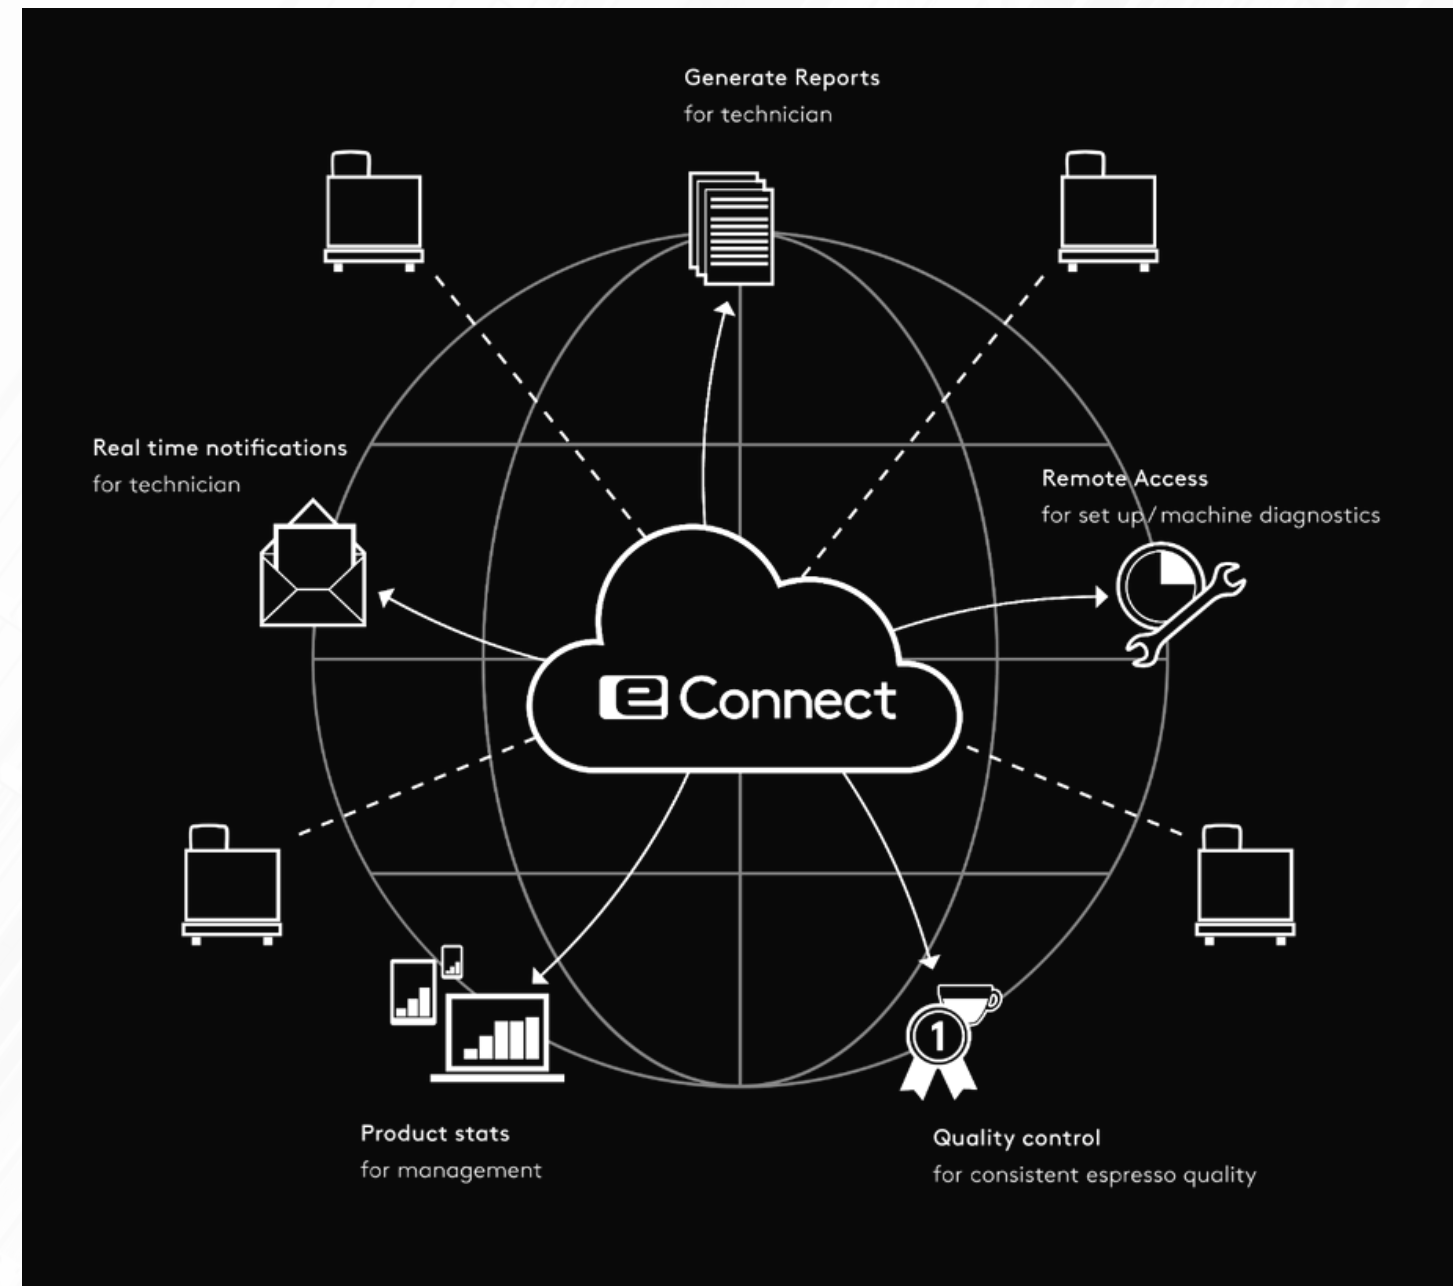

# AUTOMATIC DATA COLLECTION

---

Telemetry technology provides you with tailor-made connectivity solutions designed to support your business needs. This creates transparency, performance, and information flow to seamlessly integrate all of the customer's key performance indicators into a pull/push reporting mechanism.

Here are some of the benefits:

- Remote control
- Early warning system
- Operational efficiency
- Reduce maintenance cost
- Optimizing water and energy management
